

# St. Anthony Village

FEATURED  
AUGUST 23

## Sustainability Through Collaboration

St. Anthony created a “sustainability puzzle,” with each puzzle piece representing a sustainability project that has taken place or is ongoing in the city, including:

- *Tracking increases in residential solar sites.*
- *Counting number of rain barrels set up within the city.*
- *Construction of new technology in the Advanced Oxidation Water Treatment Plant.*

[www.savmn.com](http://www.savmn.com)

## Solar Energy Initiatives

- *20 installations within city limits since 2015.*
- *25-year agreements with two community solar garden developers in 2016.*
- *Designated a SolSmart Silver community in 2019.*

## Energy Efficiency Improvements

LED lighting retrofits have been completed in the city properties:

- *City Hall and Community Center*
- *Fire Station*
- *Water Treatment Plant*
- *Public Works*
- *Municipal liquor stores*
- *Central Park*
- *Emerald Park*
- *Silver Point Park*
